Allowable Subject Matter

1. Claims 1-8 and 10-19 are allowed.

1. The following is an examiner's statement of reasons for allowance: There is no teaching or suggestion in the prior art of the claimed combination having the upper shaft portion and the lower shaft portion configured to rotate with the control lever relative to the control lever support, where the upper shaft portion and the lower shaft portion are removably secured to the mount portion of the control lever; re claim 5, the upper bore extends completely through the upper flange and the lower bore extends only partially through the lower flange; re claim 8, a pivot shaft extending through the aperture and being fixed for rotation with the control lever; re claim 18, the mount defining a bore, a support bolt defining a shaft portion, a first end and a second end, the shaft portion configured to occupy the bore when the support bolt is coupled to the control lever, the first end having a diameter greater than the shaft portion such that the first end contacts a surface of the control lever surrounding the bore, wherein the control lever is supported for relative rotation by the support at first and second points along the pivot axis respectively defined by the first and second ends of the support bolt.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
